
Novel Algorithms For Fast Statistical Analysis Of Scaled Circuits

the lasso: some novel algorithms and applications - 1 the lasso: some novel algorithms and applications roberttibshirani stanforduniversity dept. of statistics, purdue, february 2011 collaborations with trevor hastie, jerome friedman, holger **novel algorithms for fast statistical analysis of scaled ...** - in this thesis we propose a set of novel algorithms that discard simplifications and assumptions as much as possible and yet achieve the necessary accuracy at very reasonable computational costs. we recognize that these variations follow complex statistics and use statistical approaches based on accurate statistical models. apart from being ... **nesta: a fast and accurate first-order method for sparse ...** - of novel first-order methods in convex optimization, most notably nesterov's smoothing technique, this paper introduces a fast and accurate algorithm for solving common recovery problems in signal processing. in the spirit of nesterov's work, one of the key ideas of this algorithm is a subtle averaging **traffic: a novel geometric algorithm for fast wire ...** - traffic: a novel geometric algorithm for fast wire-optimized floorplanning peter g. sassone, studentmember,ieeee, and sung kyu lim, seniormember,ieeee abstract—as the size and complexity of very large scale integrated (vlsi) circuits increase, the need for faster floorplanning algorithms also grows. this paper introduces trapezoidal **novel algorithm for sparse and parallel fast sweeping ...** - novel algorithm for sparse and parallel fast sweeping: efficient computation of sparse signed distance fields ken museth dreamworks animation figure 1: extending a sparse signed distance field from the narrow band of a level set sphere, into an overlapping mask defined as a bunny. left: surfaces of the overlapping (green) sphere and the (red) bunny, act as respectively the boundary ... **a fast algorithm for data mining - san jose state university** - a fast algorithm for data mining a writing project presented to ... several novel algorithms ... devising algorithms for mining frequently occurring patterns in large databases is an area of active research [survey]. some of the challenges **fast: a novel protein structure alignment algorithm** - fast: a novel protein structure alignment algorithm jianhua zhu1 and zhiping weng1,2* 1bioinformatics program, boston university, boston, massachusetts 2biomedical engineering department, boston university, boston, massachusetts abstract we present a novel algorithm named fast for aligning protein three-dimensional structures. fast uses a directionality-based scoring **novel algorithms for fast statistical analysis of scaled ...** - novel algorithms for fast statistical analysis of scaled circuits amith singhee thesis submitted to the carnegie institute of technology, carnegie mellon university, in partial fulfillment of the requirements for the degree of doctor of philosophy in electrical and computer engineering thesis committee: prof. rob a. rutenbar (chair) prof ... **a novel algorithm for fast sparse image reconstruction** - a novel algorithm for fast sparse image reconstruction all the experiments are performed using sub sampled frequency acquisitions, but, in order to demonstrate the capabilities of our nonlinear filtering method, we have tested it using four different acquisition strategies corresponding to the masks given in fig. 1. **a novel ultra-fast ultra-simple adaptive blind beamforming ...** - a novel ultra-fast ultra-simple adaptive blind beamforming algorithm for smart antenna arrays a. n. jabbar* university of babylon, hilla, babylon, iraq ... modified algorithms were developed to reduce the computational load by reducing the required vector length such as the recursive lms (r-lms). nevertheless, this algorithm should wait until ... **novel algorithms for tracking small and fast objects in ...** - requirements are required. in this thesis, two algorithms to overcome such limitations of current computer vision systems have been proposed. the pixel exclusion double difference algorithm (pedda) algorithm is a novel object detection algorithm that is able to detect fast moving objects in noisy images and suppress interference from **journal of theoretical and applied information technology ...** - novel algorithms for resolution enhancement of images 1renu sharma, 2madhu jain 1assistant professor, ... gaussian filter and fast non local mean (nlm) filter were further used for generating super-resolution image. ... fast nlm-clahe) and rm-3(dtcwt-fast nlm). rm-1 and rm-2 algorithms are proposed for resolution as well as contrast enhancement. **fast dominating set algorithms for social networks** - fast dominating set algorithms for social networks alina campan, traian marius truta, and matthew beckerich computer science department northern kentucky university highland heights, ky 41099, u.s.a. campana1@nku, trutat1@nku, beckerichm1@mymail.nku abstract in this paper we introduce two novel algorithms that are **novel algorithms for ip fast reroute** - novel algorithms for ip fast reroute ph.d. theses by gábor enyedi research supervisor: dr. gábor rétvári department of telecommunications and media informatics submitted in partial fulfillment of the requirements for the degree of doctor of philosophy at budapest university of technology and economics budapest, hungary february 2011 **a novel geometric algorithm for fast wire-optimized ...** - a novel geometric algorithm for fast wire-optimized floorplanning peter g. sassone, sung k. lim school of electrical and computer engineering georgia institute of technology atlanta, georgia 30332, usa abstract as the size and complexity of vlsi circuits increase, the need for faster floorplanning algorithms also grows. in this work we
